

Adobe Systems Incorporated (US)

“Founded in 1982, Adobe Systems Incorporated has spent over two decades revolutionizing the ways people communicate. Today, enterprises use powerful Adobe solutions to connect people, systems, and processes. Creative professionals use Adobe industry- standard graphics, layout, and video software to produce visually rich communications. And home and office customers share memories and information with Adobe software that is both accessible and affordable. One of the world's largest PC software companies, Adobe generates annual revenues exceeding US\$1 billion.”
