

Career College Association (US)

“The Career College Association is a voluntary membership organization of accredited, private, postsecondary schools, institutes, colleges and universities that provide career-specific educational programs. CCA has over 1,400 members that educate and support almost two million students each year for employment in over 200 occupational fields. These schools and colleges graduate approximately one-half of the technically trained workers who enter the U.S. workforce each year and also provide retraining for displaced workers and skills-upgrading for a wide variety of public and private employers.”
