

Center for Economic and Policy Research (US)

ARCHIVES

“The Center for Economic and Policy Research (CEPR) was established to promote democratic debate on the most important economic and social issues that affect people's lives. In order for citizens to effectively exercise their voices in a democracy, it is necessary that they be informed about the problems and choices that they face. CEPR is committed to presenting issues in an accurate and understandable manner, so that the public is better prepared to choose among the various policy options.”
