This file contains data for every institution in the Carnegie Classifications online listings as of the last date given above. Included are each institution's classifications, most underlying data elements from which those classifications were derived, and selected additional variables from IPEDS.

Proprietary data from the College Board which the Carnegie Foundation licensed for use in the classifications are not included, in accordance with the license terms. These data include: entrance examination quartile cuts; number of transfer entrants; percentage of undergraduates living in college-owned, -operated, or -controlled housing; and self-described special focus.

All-inclusive classifications are time-specific snapshots of institutional attributes and behavior based on data from 2003 and 2004. Institutions might be classified differently using a different timeframe. Individual classifications are not updated with more recent data.

For specifics about data sources and how they were used to derive the classifications, refer to the "Classification Descriptions" and "Technical Details" information on the Carnegie Foundation Web site: <http://www.carnegiefoundation.org/classifications>

In rare instances we have disaggregated a single IPEDS entity into more than one classification entity. If an IPEDS UNITID has not already been assigned for the new entity, we created a contrived 7-digit ID consisting of a single digit plus the 6-digit UNITID of the original entity.
