

## *Clever Inc. (US)*

“We believe that data should empower learning, not hold it back. With unique experiences in education and technology, the Clever team understands the data challenges that schools and developers face. Our mission is to make powerful educational software easy to build and easy to deploy.”

From [getclever.com/about/](http://getclever.com/about/), 3 September 2012

Build educational applications that just work. School integration doesn't have to be painful. Use Clever to get real-time student data.
