

ESP Solutions Group (US)

ARCHIVES

“Founded in 1993 as Evaluation Software Publishing, Inc., the firm provides its clients with extraordinary insight into K-12 education data systems and psychometrics. Our team is comprised of industry experts who pioneered the concept of ‘data driven decision making’ in the 1980's and now help optimize the management of our clients' education organizations.”

“Our clients are typically state education agencies and the leading school districts around the country.”
