

What is MyScribe?

MyScribe is iTunes for eBooks: buy textbooks, organize your library, subscribe to notes for your books... and much more.

Add a boost to your reading experience

MyScribe takes reading to the next level. Easily take and share notes on any PDF or MyScribe digital book. Think your PDF will be valuable to someone else? Publish it to CaféScribe and begin sharing notes with other scribes...all for free. Come on, don't be shy - download MyScribe, import a few PDF files and start sharing notes with your buddies.

Find friends and start sharing any of your PDFs with your friends or classmates. Share Notes with others who are reading the same stuff. Academics call it "collaborative learning", we call it "divide and conquer" Why not share notes and figure out what is most important more quickly?

Find friends and start sharing

- **Upload and share any of your PDFs** with your friends or classmates.
- **Share notes** with others who are reading the same stuff. Academics call it "collaborative learning", we call it "divide and conquer" Why not share notes and figure out what is most important more quickly?
- **Rank others** on how well they take notes. Find the genius note taker for your classes
