FISCAL YEAR 2006 SPRING OPENING ENROLLMENT REPORT

Each Spring, community colleges report opening spring term enrollment figures to the Illinois Community College Board through a brief web-based survey. These figures reflect only those students enrolled in credit courses that were operational on the census date (last day of course registration for regular classes). Enrollment for classes beginning after the census date are reflected in the annual enrollment counts. The following paragraphs summarize survey results.

Background. This report contains information on student enrollments as of the end of registration (usually the 10th day of the term) for the Spring semester. Statewide results of the fiscal year 2006 Spring opening enrollment survey show that compared with the same term one year ago both headcount enrollments and full-time equivalent (FTE) enrollments decreased slightly. Statewide the spring semester headcount was 352,020 compared to 357,602 last year (a decrease of -5,582 or -1.6 percent). The FTE count was 191,820 compared with 196,054 a year ago (a decrease of -4,234 or -2.2 percent). Overall, statewide fewer students were taking fewer credits.

Table 1 contains statewide comparative Spring tenth-day enrollments for the last five years. Spring headcount enrollments decreased for the second year in a row but remain above the 2002 level. FTE enrollments decreased this year following four consecutive years of increases. Longer term, FTE enrollments remain above the 2002 level as well.

Figure 1 on the next page illustrates a comparison of opening Spring headcount and FTE trends from 2002 - 2006.

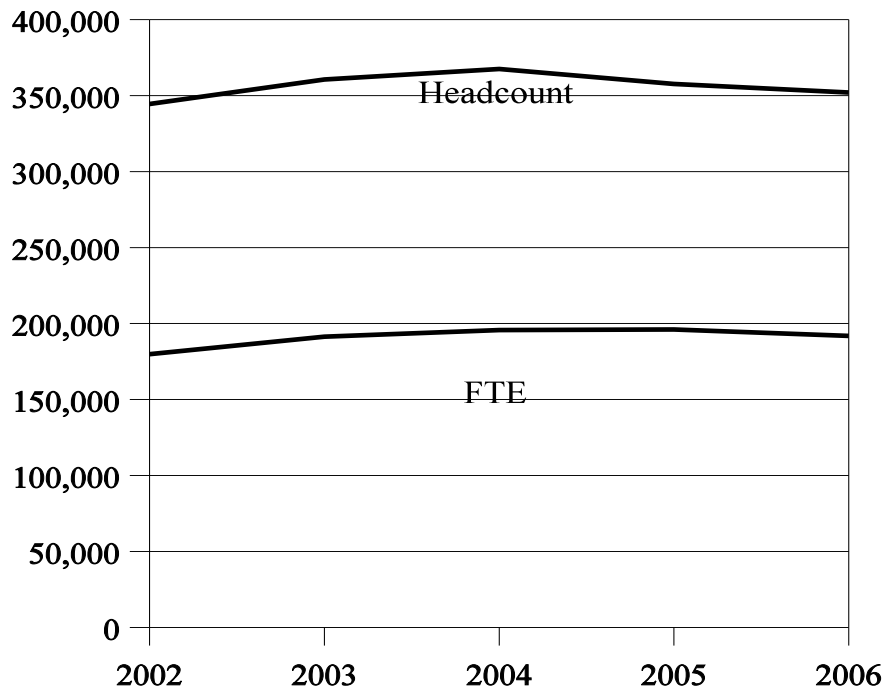

Figure.1. Spring Term Headcount and FTE Enrollment, 2002-2006

Table 2 provides a comparison of fiscal year 2002 through fiscal year 2006 Spring headcount enrollments for each community college. Looking at headcount enrollment changes over the last year among the 48 community colleges shows that 15 colleges experienced increases (1.0 percent or higher) in headcount, while 25 exhibited decreases (1.0 percent or higher) during the past year. Eight colleges reported little or no change (less than 1.0 percent) in headcount enrollments compared to last year.

Table 3 contains comparative information on Spring FTE enrollments for the five-year period between 2002 and 2006. Compared to last year, Spring FTE increases were reported by 18 colleges, decreases by 20, and 10 colleges indicated little or no change.
