

ILLINOIS COMMUNITY COLLEGE BOARD

FALL 2006 OPENING ENROLLMENT SURVEY RESULTS

Background. Fall opening enrollment information for credit-generating students are recorded by the colleges at the end of the regular fall registration period, which is usually the 10th day of class. Opening fall enrollment data are gathered from postsecondary institutions nationwide. Historically, these counts provide a "snapshot" of opening fall term enrollment for year-to-year and institution-to-institution comparisons. The diversity of the community college system and its students is not fully captured in these opening enrollment data. Colleges actively seek out opportunities to serve students that may not fit into the traditional reporting framework. Modules within terms/late-start classes and internet based course delivery are some examples of college outreach efforts. Providing increasingly flexible scheduling from one year to the next is necessary to accommodate student schedules and compete successfully in the marketplace. Hence, enrollment trends are more fully captured through the use of annual data.

Statewide Results. Compared to last fall, statewide fall 2006 enrollments were relatively flat with small decreases occurring in both headcount and FTE. Based on preliminary counts, systemwide there was a -0.7 percent decrease in headcount enrollments for fall 2006 compared to fall 2005. The number of students enrolled in credit courses at community colleges as of the end of registration for fall term 2006 was 350,292, which is down 2,532 students from the fall term 2005 enrollment of 352,824 students. Preliminary data for fall 2006 show a -0.4 percent decrease in FTE enrollment compared to last fall. The total preliminary fall 2006 FTE enrollment was 196,652, which is a decrease of the equivalent of 715 full-time students from fall 2005 FTE (197,367). These preliminary counts are from the internet based Fall Enrollment Survey and fall 2006 results are subject to verification upon receipt of the detailed fall enrollment (E1) data.

Table 1 provides systemwide comparative fall census enrollment counts for the last five years. This year's statewide headcount enrollment decrease is modest and marks the third consecutive year in which the number of students attending has decreased. Systemwide FTE enrollments decreased slightly for a second year yet Fall 2006 FTE remains above Fall 2002 FTE enrollment levels.

Table 1
SUMMARY OF OPENING FALL ENROLLMENT IN
ILLINOIS PUBLIC COMMUNITY COLLEGES FROM 2002 TO 2006

	2002	2003	2004	2005	2006
Headcount	353,705	365,019	363,204	352,824	350,292
Percent Change	+4.3%	+3.2%	-0.5%	-2.9%	-0.7%
FTE	193,485	202,699	203,091	197,367	196,652
Percent Change	+5.7%	+4.8%	+0.2%	-2.8%	-0.4%

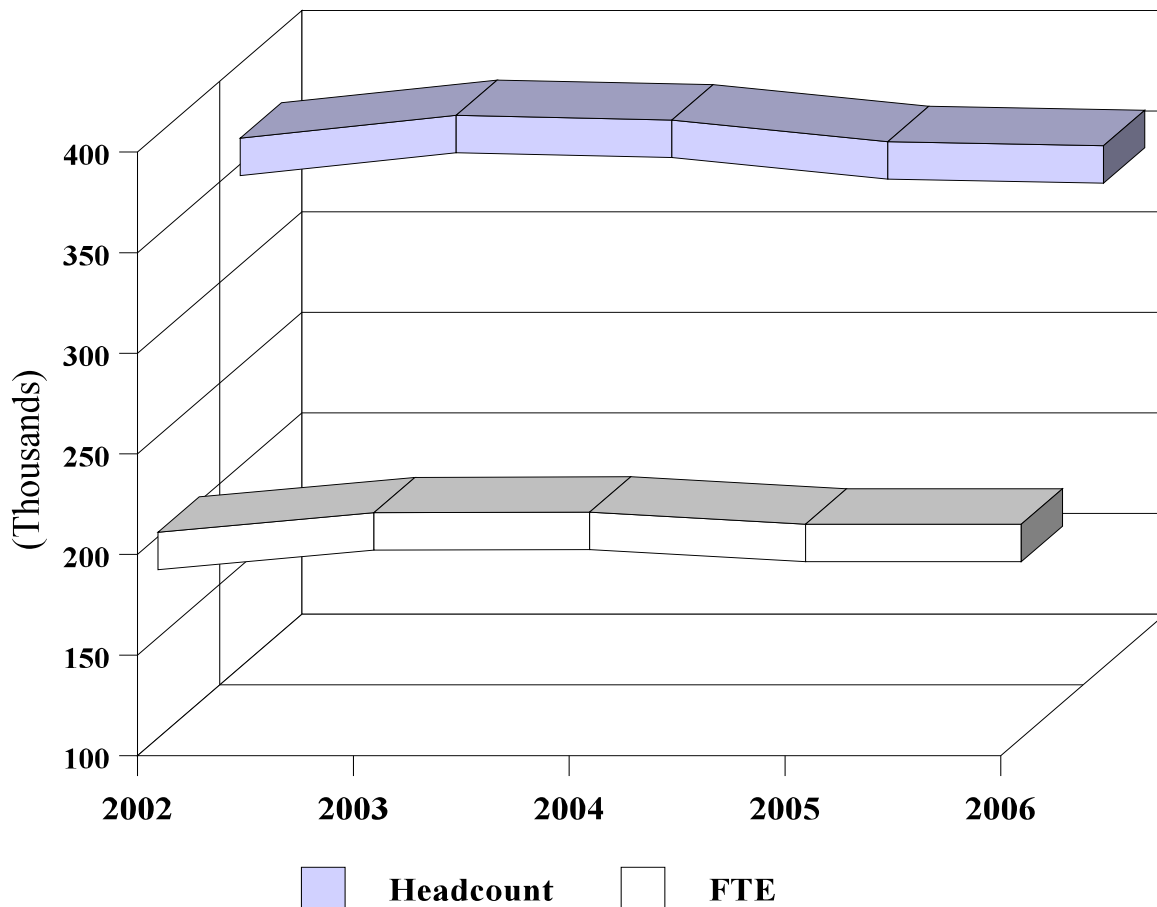

Figure 1: Opening Fall Headcount and FTE Enrollment, 2002-2006

Results by College. Table 2 provides comparative information by college of fall 2002 through 2006 headcount enrollments. A one-year comparison between fall 2005 and fall 2006 among the 48 community colleges shows that the number of colleges with declines outpaced those with increases. Twenty-two colleges reported headcount enrollment decreases of one percent or more. Fifteen colleges exhibited headcount enrollment increases of one percent or above. Eleven colleges experienced little or no change (less than one percent).

Table 3 provides a college level comparative data on FTE enrollments for the most recent five-year period. The number of colleges with enrollment increases lead those who reported declines. Over the past year, FTE increases were reported by 21 colleges, decreases by 19, and eight colleges registered little or no change.

Results for Students in Correctional Facilities. Table 4 provides a comparison of 2005 and 2006 fall headcount enrollment for each community college, broken out by correctional and non-correctional student enrollment. Table 5 shows a comparison of FTE enrollment, for both correctional and non-correctional students, for fall 2005 and fall 2006 by community college.

Nine Illinois community colleges furnished instructional services to correctional facilities during the fall semester of both 2005 and 2006. In the latest data, students in correctional facilities accounted for 1.2 percent of the statewide headcount. Proportionately, this was just slightly higher

than in fall 2005 (1.0 percent). Students in correctional facilities accounted for 0.9 percent of the overall FTE enrollment in fall 2006 which is comparable to fall 2005 (0.8 percent). An examination of only student enrollments in correctional facilities reveals a headcount increase of 12.3 percent and FTE increase of 6.9 percent. Exclusively non-correctional headcount enrollment decreased -0.9 percent from fall 2005 to fall 2006. The non-correctional FTE enrollments decreased 0.4 percent.
