Mike,

Apologies for a tardy response - I've been *buried*. The paper has been
posted on the student.osnext.org website. The URL is
http://student.osnext.org/public/WhitePaper-OpenSourceServiceProviderMod
el%20Final.pdf/download or it is listed in the "public documents"
section.

Cheers - Brad

Subject: Open Source Services Provider White Paper

Dr. Wheeler,

As we discussed last week we have completed a white paper which puts forth
our thoughts regarding the role of open source services providers in the
higher education space. I have attached that document for your review and
consideration.

I would like to post it to the OSNext Web Site with the white papers that
Bernie Gleason and Richard Spenser have previously posted. However, I do not
appear to have access permission to do so. Your assistance on getting this
done would be most appreciated.

We have been in touch with Jim Farmer and have provided him with information
he has requested. He will be visiting us on May 30th for some in depth
Discussion regarding the student services system we are donating to the
higher education community as open source.

I look forward to your thoughts regarding the white paper. We are also
looking to the community source conference in Vancouver.

Regards,

Mike Underwood
