

## *Instructure Inc (US)*

“Instructure makes software that makes smarter people. It all started with Canvas in 2011 and the goal to make teaching and learning a lot easier. And now, in 2015, we’ve launched our brand new baby, Bridge, which aims to change the way you (and, more importantly, your employees) think about employee engagement and corporate training. Today, more than 1,400 universities, school districts and institutions around the world use (and love) our products. We’re out to make the world smarter with better software.”
