“MassINC is an independent think tank using non-partisan research, civic journalism and public forums to stimulate debate and shape public policy. Our mission is to promote a public agenda for the middle class and to help all citizens achieve the American dream.

“We were founded in 1996 by Tripp Jones and Michael Gritton who, together with a small group of leaders from the civic, business and policy-making fields, believed that the policy process in Massachusetts was missing accurate, thorough and unbiased information and research about the challenges facing the middle class.
