

Ostrakon, Ltd. (UK)

Ostrakon (gr.) - Shard of pottery. These were used for balloting in early systems of democracy.

The Ostrakon System is an effective tool to gather student feedback online using email and a web form, as well as to organize and evaluate the results effortlessly. This allows the considerable achievement of excellent teachers to be recognized. Graphical summaries of student feedback as well as suggestions for improvement can be passed on to the responsible lecturers within days.
