

Partnership for 21st Century Skills

“The Partnership for 21st Century Skills is a unique alliance of education, business and government leaders working to fully address the education needs and challenges of work and life in the 21st century.”

“The Partnership for 21st Century Skills has developed a series of ICT Literacy Maps that illustrate the intersection between Information and Communication Technology (ICT) Literacy and core academic subjects. Each of the ICT Literacy Maps was created in conjunction with organizations that represent the core academic subject areas.”
