

Plato Learning, Inc. (US)

“PLATO Learning, Inc. is the original educational software company, with a history of successful student outcomes. Our heritage of innovation dates back to 1963 and continues today as we lead the educational technology industry with the breadth and depth of our software and services.

“We deliver just-in-time online assessments that are tied directly to state and provincial standards. Our courseware includes thousands of hours of basic to advanced level instructional content for K-adult learners.
