

2009 Sakai Foundation By-law Revisions

Added by Michael Korcuska, last edited by Pieter Hartsook on Jul 30, 2009

The Changes

Change 1: Allowing appointed Board members

In September of 2008 after talking with other Higher Education open source Executive Directors, Michael Korcuska proposed the following to the Board:

The Sakai Board consists of 7-11 (currently 9) members who are elected by Sakai Foundation member representatives from a pool of nominees. Any one can be nominated. The result of this process is a Board that is solely drawn from Sakai community insiders, which has two primary drawbacks:

1. Lack of diversity. A perspective from someone not actively engaged in the community would be valuable for a variety of reasons.
2. Lack of specific expertise. It would be good to have financial expertise, at least, and I would argue that non-profit expertise and open source governance expertise would also be valuable. The election process will always ignore these issues.

I propose that the by-laws be revised to allow for 6-8 elected members (3 year terms as they are today) and 2-3 recruited members. These external members would be recruited by the Board and would serve 2-3 year terms (I think 3 is too long a commitment to ask from outsiders, but we could try). This means that the Sakai community will dominate the Board but we will have access to the diversity and expertise we need.

After discussion in Board meetings and on the Board list, the Board recommended the following (note the differences to the original proposal):

- Revise the bylaws to allow the Board to appoint up to 2 individuals to the Board.
- Any appointed Board members would serve 2 year terms.
- Any appointed Board members could serve up to 3 consecutive terms.
- The total number of Board members remains 7 to 11 with no maximum on the number of elected members.

Expected effects of the "appointed directors" change

The expected effect of this change is to increase the breadth of expertise on the Sakai Foundation Board of Directors without changing the fact that the Membership should have substantial control over the composition of the Board.

In the long run it is impossible to predict the effects of this change on the composition of the Board. There could be 11 elected Board members and 0 external Board members. There could also be 5 elected Board members and 2 appointed member. That still gives the elected members a 2/3 majority, which was the goal.

In the short term, the current Board has discussed what it might do if this change were approved. While there is no guarantee about what will actually happen, past discussions indicate that the Board would want to recruit and appoint one external Board member with financial expertise (perhaps a CFO or controller at a member institution). Getting outside perspective from another open source project has also been discussed as a potential reason for appointing a Board member, but no consensus was reached on this (the idea of an advisory board, separate from the Board of Directors, was floated as an alternative).

Change 2: Removing the provision requiring Board approval of conference chair

The by-laws currently contain the following language:

The Board of Directors shall have the following functions and such other functions as it deems consistent with the Purposes stated in Article VI, Section 6.2(a) above.

1. To hire an Executive Director, and hire or appoint a Secretary and Treasurer and to determine the conditions of their appointments and **to appoint conference chairs and program committee chairs for each conference.** (*emphasis added*)

The Board deems this to be an operational issue that should not be required in the by-laws. If the Board wishes to have this sort of control over conferences they can do so through other mechanisms. It should not be in the by-laws. Michael noticed this quite a while ago and thought it strange, but we deemed it wasn't worth addressing by itself. We're addressing it now because another change has been proposed.

Expected effects of the removal of this provision

This is expected to have no significant effect on the Sakai Foundation.

The actual language

To see the proposed changes please download the a red-lined version in either MSWord or PDF format.

Process Requirements

The Board originally asked Michael to have an attorney look at the language. After some delays that review has happened and the attorney sees no problem with the proposed language.

According to the Sakai by-laws the Board can modify the by-laws as follows:

ARTICLE X AMENDMENTS

10.1 The Bylaws or the Articles of Incorporation may be amended in whole or in part by a two-thirds majority vote of the Board of Directors except as otherwise specified for special circumstances in these Bylaws or provided by Michigan law. Amendments may be proposed by any Organizational Representative to the Board of Directors. The Board shall circulate the proposed amendment to all Organizational Representatives, and publish it to the public, for discussion, at least thirty days prior to vote. In addition, all amendments must be discussed at a Board meeting prior to the one at which they are voted on by the Board.

The publishing of this wiki page begins the process of circulating the proposed amendment for discussion. The Board has previously discussed these amendments and, in fact, approved them subject to the review of an attorney.

So the last step would be a formal vote after the public commentary. However, there is a small twist. According to Michigan's Nonprofit Corporation Act that governs membership corporations, changes of this type *probably* cannot be made without the approval of the Membership (by advice of our attorney). And, regardless of any legal requirement to do so, the Board feels it should get the Membership's approval to make the change to allow appointed Board members. A simple majority vote of current members is what is required.

In fact, it is unclear that the Board even **need** to vote if the Membership approves the changes, but the conservative position is that both the Membership and the Board of Directors need to approve the change.

The change to remove the language regarding the approval of conference chairs does not require membership approval. We will, however, ask for Membership approval for this change at the same time.

Each of the changes can be voted on independently.

Timeline

There is a small question of sequence that is somewhat ambiguous given the bylaws and Michigan law. Should the Board formally vote before or after the Membership has approved? Or does it matter at all? Or could the Board vote happen during the allowed

time period for the Membership vote? None of these options seem to be excluded by the by-laws or Michigan law.

The key things seem to be:

- The Board and Membership have access to the community discussion and commentary prior to their vote.
- The Membership and community know the Board's opinion on the changes before the commentary period.

Both of these are fulfilled. So, for expediency's sake, I'm recommending the Board and Membership voting process can happen in parallel, as follows:

Date	Description
July 30, 2009	The proposed amendments are be circulated for public comment
August 31, 2009	Comment period closes
By September 17, 2009	The Board will vote (via email or at the September meeting) to formally adopt or reject the proposed changes
By September 30, 2009	The Membership will be asked to vote on each amendment. The exact mechanism for voting is TBD.
October 2009	Assuming approval, paperwork will be filed with the State of Michigan.

If the commentary period results in a desire for the Board to modify the language, the cycle would start again. New language would have to be drafted and approved by legal counsel and the Board and the language would be sent for another 30 day commentary period.

If either or both amendments are rejected by the Board it is likely the process would stop there.

Sakai Foundation Conflict of Interest Policy

Article I

Purpose

The purpose of the conflict of interest policy is to protect this tax-exempt organization's (Organization) interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or director of the Organization or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

Article II

Definitions

1 Interested Person

Any director, principal officer, or member of a committee with governing board delegated powers, who has a direct or indirect financial interest, as defined below, is an interested person.

2. Financial Interest

A person has a financial interest if the person has, directly or indirectly, through business, investment, or family:

- a. An ownership or investment interest in any entity with which the Organization has a transaction or arrangement.
- b. A compensation arrangement with the Organization or with any entity or individual with which the Organization has a transaction or arrangement, or
- c. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the Organization is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Article III, Section 2, a person who has a financial interest may have a conflict of interest only if the appropriate governing board or committee decides that a conflict of interest exists.

Article III

Procedures

1 **Duty to Disclose** In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.

2 Determining Whether a Conflict of Interest Exists

After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining board or committee members shall decide if a conflict of interest exists.

1 Procedures for Addressing the Conflict of Interest

4. Violations of the Conflicts of Interest Policy

a. If the governing board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

b. If, after hearing the member's response and after making further investigation as warranted by the circumstances, the governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

Michael Korcuska 15/12/08 14:18
 Mise en forme : Puces et numéros

- a. An interested person may make a presentation at the governing board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.
- b. The chairperson of the governing board or committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.
- c. After exercising due diligence, the governing board or committee shall determine whether the Organization can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to the conflict of interest.
- d. If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the Organization's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination it shall make its decision as to whether to enter into the transaction or arrangement.

Article IV Records of Proceedings

The minutes of the governing board and all committees with board delegated powers shall contain:

- a. The names of the person who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest was present, and the governing board's or committee's decision as to whether a conflict of interest in fact existed.
- b. The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

Article V Compensation

- a. Has received a copy of the conflicts of interest policy,
- b. Has read and understands the policy,
- c. Has agreed to comply with the policy, and
- d. Understands the Organization is charitable and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish one or more of its tax-exempt purposes.

Article VII Periodic Reviews

To ensure the Organization operates in a manner consistent with charitable purposes and does not

engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be conducted. The periodic reviews shall, at a minimum, include the following subjects:

- a. Whether compensation arrangements and benefits are reasonable, based on competent survey information, and the result of arm's length bargaining.
- b. Whether partnerships, joint ventures, and arrangements with management organizations conform to the Organization's written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes and do not result in inurement, impermissible private benefit or in an excess benefit transaction

Article VIII Use of Outside Experts

When conducting the periodic reviews as provided for in Article VII, the Organization may, but need not, use outside advisors. If outside experts are used, their use shall not relieve the governing board of its responsibility for ensuring periodic reviews are conducted.
