Hello Jim-

You do have authorization to reproduce & distribute SCT press releases as long as they are copied in their entirety.

Regards,

Michelle Reed  
Vice President, Marketing Communications

Please respond to  
jxf

Since the SCT Website continues to carry the SCT copyright "Copyright (c) 2003 SCT Corp." on the press releases posted on the Website, could you grant permission to im+m and the JA-SIG Collaborative to reproduce and distribute your press releases provided they are copied in their entirety?

As an example, our colleagues at Oxford University and the University of Hull would like to share the December 17th University of Nottingham press release with their peers.

Thanks.
