Trustek Inc.

Delivering quality. Adding value.

Services

Global business dynamics are changing rapidly and the phrase Survival of the fittest takes a new meaning in this new environment. Corporations that are leveraging the benefits of outsourcing are likely to come out as winners over those who refuse to adapt. Outsourcing is evolving from cost cutting to a business paradigm shift. The phenomenon now encompasses anything that can be done anywhere in the world in a better fashion.

We at Trustek have been trying to leverage our Offshore offices and alliances in India to deliver software projects, transaction processing, call center management and e-mail processing services. The myth that India offers cheap labor is fast being dispelled as the advantages of working in India are manifold starting with cost savings and spreading across productivity, better design and 24/7 operational capabilities.

We invite you to challenge us with your software and business process initiatives and we guarantee you we will show you a substantial difference across you project management metrics.

We offer services in the following areas:

IT Staffing

Our Employees have configured and customized various ERP packages at Fortune 500 clients such as Eastman Kodak, Pfizer, Bristol Meyers Squibb etc. Apart from this we also have remotely managed various ERP packages and did all the programming work for our clients. Enterprise Resource planning has now reached a mature stage where integration with other ERP , CRM and DataWarehousing packages is increasingly becoming more complex. Our Associates have integrated SAP with Siebel, Tibco and other Products. Similarly we have integrated PeopleSoft with Sap and JDEdwards. With out configuration, customization, integration and development experience across various packages we can offer you services exceed most other staffing services.

BP Outsourcing

Data Entry Outsourcing

We provide the most comprehensive range of Data Entry Outsourcing Management Services to the business community. Time and again our team of data entry specialists have demonstrated the capacity to produce quality work under stiff deadlines and the most challenging environment on time, every time. It is this vital reliability factor that has helped us to forge strong links with an ever-growing customer base availing of our data entry services. We understand that your data is an asset to your business. Not having your data readily available means loss of business opportunities to you. Trustek works with you to convert existing data in various file and media formats to the formats that you need to run your business intelligently.

We offer the following services:

- e-books publishing
- OCR/Key entry/Word processing
- Data format conversions
- Database management
- Imaging and indexing for archival systems.
- Conversions to HTML /XML/SGML
- High Volume document scanning with de-skewing and de-speckling
- DjVu Conversion
- Acrobat PDF conversion
- Large format scanning
- Turnkey document archival and delivery systems

Trustek ePublishing works with your organization to create high-value, high-impact digital assets, including full-text databases, abstract and indexing databases, and digital library collections.

Trustek ePublishing creates digital assets that are:

- Highly functional
- Intensely linked
- Fully indexed and cross referenced
