Acting Associate Commissioner

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

The Integrated Postsecondary Education Data System (IPEDS) collects institution-level data from postsecondary institutions in the United States (50 states and the District of Columbia) and other U.S. jurisdictions (see appendix A for a list of other U.S. jurisdictions). This *First Look* presents findings from the preliminary data of the IPEDS spring 2012 data collection, which included four survey components: Enrollment at postsecondary institutions during fall 2011; Finance, for the 2011 fiscal year; and graduation rates of selected cohorts within 150 and 200 percent of normal program completion time. Data for all components were collected through the IPEDS web-based data collection system. Detailed information about the study methodology can be found at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2012293>.

This *First Look* using IPEDS preliminary data provides users with an opportunity to obtain access to IPEDS data soon after the close of data collection. Provisional data for this collection, containing fully imputed and adjudicated data, will be released approximately 3 months after the preliminary data. Final data, including revisions submitted by institutions after the close of data collection, will be available during the following collection year (2012-13).

The purpose of this report is to introduce new data through the presentation of tables containing descriptive information. Selected findings have been chosen to demonstrate the range of information available when using the IPEDS data rather than to discuss all of the observed differences, and they are not meant to emphasize any particular issue. Not all data collected during the spring 2012 collection are displayed in this *First Look*; however, all data from the spring 2012 collection are publicly available through the IPEDS Data Center, found at <http://nces.ed.gov/ipeds/datacenter>.

IPEDS 2011-12

Participation in IPEDS was required for institutions and administrative offices that participated in Title IV federal student financial aid programs such as Pell Grants or Stafford Loans during the 2011-12 academic year.¹ A total of 7,398 institutions and 81 administrative offices (central or system offices) in the United States and other U.S. jurisdictions were expected to participate in the spring collection. Tables in this report focus on the 7,233 institutions and 78 administrative offices in the United States; however, data from institutions and administrative offices in both the United States and the other U.S. jurisdictions are available for download.

Detailed definitions of terms used in this report are available in the glossary (appendix B).

Enrollment

The 2012 Enrollment component collected student enrollment data for fall 2011. Data were collected on the race/ethnicity and gender of students, attendance status, and student level (undergraduate or graduate). Institutions were also required to report data by student age, while state of residency reporting was optional. Retention rates and student faculty ratios were also collected via the Enrollment component.

¹ Institutions participating in Title IV programs are accredited by an agency or organization recognized by the Secretary of the U.S. Department of Education, have a program of more than 300 clock hours or 8 credit hours, have been in business for at least 2 years, and have a signed Program Participation Agreement with the Office of Postsecondary Education, U.S. Department of Education.

Finance

The 2012 Finance component collected financial statistics, such as institutional revenues and expenses, for fiscal year 2011. The Finance component is designed to follow the format of institutional financial statements suggested by the Financial Accounting Standards Board (FASB) and the Governmental Accounting Standards Board (GASB). Most public institutions and administrative offices follow GASB, so the figures in this report for public entities² represent those following GASB standards.³ Aggregate totals for public entities using FASB standards are included in the footnotes of tables displaying Finance data. All private entities use FASB standards.

Graduation Rates

The 2012 Graduation Rates component collected counts of full-time, first-time⁴ degree/certificate-seeking undergraduate students beginning their postsecondary education in the specific cohort year and their completion status as of August 31, 2011 (150 percent of normal program completion time) at the same institution where the students started. Four-year institutions used 2005 as the cohort year, while less-than-4-year institutions used 2008 as the cohort year. For 4-year institutions operating on standard academic terms (semester, trimester, quarter), students beginning in cohort year 2005 are those who were first-time students in the fall of the 2005-06 academic year. For 4-year institutions operating on other than standard academic terms, students beginning in cohort year 2005 are those who were first-time students between September 1, 2005, and August 31, 2006. Similarly, for less-than-4-year institutions operating on standard academic terms, students beginning in cohort year 2008 are those who were first-time students in the fall of the 2008-09 academic year. For less-than-4-year institutions operating on other than standard academic terms, students beginning in cohort year 2008 are those who were first-time students between September 1, 2008, and August 31, 2009.

200 Percent Graduation Rates

The 200 Percent Graduation Rates component collected counts of full-time, first-time degree/certificate-seeking undergraduate students beginning their postsecondary education in the reference period and their completion status as of August 31, 2011 (200 percent of normal program completion time) at the same institution where the students started. Four-year institutions report on bachelor's or equivalent degree-seeking students and use cohort year 2003 as the reference period, while less-than-4-year institutions report on all students in the cohort and use cohort year 2007 as the reference period. For 4-year institutions operating on standard academic terms, students beginning in cohort year 2003 are those who were first-time students in the fall of the 2003-04 academic year. For 4-year institutions operating on other than standard academic terms, students beginning in cohort year 2003 are those who were first-time students between September 1, 2003, and August 31, 2004. Similarly, for less-than-4-year institutions operating on standard academic terms, students beginning in cohort year 2007 are those who were first-time students in the fall of the 2007-08 academic year. For less-than-4-year institutions operating on other than standard academic terms, students beginning in cohort year 2007 are those who were first-time students between September 1, 2007, and August 31, 2008.

² Throughout this publication, the term "entity" refers to both institutions and administrative offices.

³ Ninety-nine percent of public institutions used GASB, and 1 percent used FASB.

⁴ Throughout this publication, the term "first-time" refers to students with no prior postsecondary experience attending any institution for the first time at the undergraduate level. See appendix B, Glossary, for further definition of a first-time student.

Characteristics of Enrolled Students

- In fall 2011, Title IV institutions enrolled 18.6 million undergraduate and 2.9 million graduate students (table 1). Of the 18.6 million undergraduates, 57 percent were enrolled in 4-year institutions, 41 percent in 2-year institutions, and 2 percent in less-than-2-year institutions.

Revenues and Expenses of Title IV Entities

- In fiscal year 2011, public 4-year institutions and administrative offices received 19 percent of their revenues from tuition and fees, compared with 29 percent at private nonprofit entities and 90 percent at private for-profit entities (table 2). Additionally, 29 percent of expenses at public 4-year entities were for instruction, compared with 42 percent at public 2-year entities and 54 percent at public less-than-2-year entities.

Graduation Rates

- Approximately 59 percent of full-time, first-time students at 4-year institutions in 2005 who were seeking a bachelor's or equivalent degree completed a bachelor's or equivalent degree within 6 years at the institution where they began their studies (table 3).
- Graduation rates for undergraduates who were full-time, first-time students in 2007 increased from 21 percent to 37 percent at 2-year institutions and from 46 percent to 69 percent at less-than-2-year institutions when the time students were tracked for program completion was extended from within 100 percent of normal time to within 200 percent of normal time (table 4).

Table 1. Enrollment at all Title IV institutions, by control of institution, student level, level of institution, attendance status, gender, and race/ethnicity: United States, fall 2011

| Student level, level of institution, attendance status, gender, and race/ethnicity | Total | | Public | | Private | | | |

Rounds to zero.

NOTE: Title IV institutions are those with a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs. Though they are not Title IV eligible, four of the U.S. service academies are included in the Integrated Postsecondary Education Data System (IPEDS) universe since they are federally funded and open to the public. Students who self-identify with more than one race are included in the Two or more races category. Students of Hispanic or Latino ethnicity are included in the Hispanic or Latino category regardless of race. Percentages in the columns of this table use the corresponding count in the appropriate total row of each section as the denominator. Definitions for terms used in this table may be found in the IPEDS online glossary located at <http://nces.ed.gov/ipeds/glossary>. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, IPEDS, Spring 2012, Enrollment component (preliminary data).

Table 2. Revenues and expenses of all Title IV institutions and administrative offices, by level and control of institution or administrative office, accounting standards utilized, and source of funds: United States, fiscal year 2011

| Source of funds | 4-year | | 2-year | | Less-than-2-year | |
|--|--|---------|--|---------|--|---------|
| | Revenues or expenses (in thousands) | Percent | Revenues or expenses (in thousands) | Percent | Revenues or expenses (in thousands) | Percent |
| | Public (GASB standards ¹) | | | | | |
| Total revenues and other sources | \$254,915,761 | 100.0 | \$58,684,706 | 100.0 | \$722,901 | 100.0 |
| Operating revenues | 154,282,296 | 60.5 | 16,758,019 | 28.6 | 329,200 | 45.5 |
| Tuition and fees (net of allowances and discounts) | 48,151,439 | 18.9 | 9,324,290 | 15.9 | 161,970 | 22.4 |
| Grants and contracts | 41,013,213 | 16.1 | 4,367,158 | 7.4 | 120,230 | 16.6 |
| Federal (excludes FDSL loans) | 26,265,321 | 10.3 | 2,187,391 | 3.7 | 32,010 | 4.4 |

See notes at end of table.

Table 2. Revenues and expenses of all Title IV institutions and administrative offices, by level and control of institution or administrative office, accounting standards utilized, and source of funds: United States, fiscal year 2011—Continued

| Source of funds | 4-year | | 2-year | | Less-than-2-year | |
|---|--|---------|--|---------|--|---------|
| | Revenues or expenses (in thousands) | Percent | Revenues or expenses (in thousands) | Percent | Revenues or expenses (in thousands) | Percent |
| Private for-profit (FASB standards)—Continued | | | | | | |
| Total expenses—Continued | | | | | | |
| Net grant aid to students | 75,599 | 0.4 | 17,404 | 0.3 | 9,145 | 0.3 |
| Auxiliary enterprises | 343,230 | 2.0 | 143,113 | 2.2 | 0 | 0.0 |
| Other expenses | 745,564 | 4.3 | 898,661 | 13.7 | 549,557 | 15.7 |

— Not available. Non-degree-granting institutions and administrative offices report the total other revenues and additions, but not the details.

Rounds to zero.

¹ In addition to the public institutions using Governmental Accounting Standards Board (GASB) standards, 25 public institutions (1.2 percent of public institutions) not displayed in this table reported \$11.1 billion in revenue and investment return and \$9.2 billion in expenses using Financial Accounting Standards Board (FASB) standards.

² Non-degree-granting institutions report the total other revenues and additions, but not the details. As a result, the details will not sum to the total.

³ Other revenue is a calculated value and may be negative if the total revenue and investment return reported is less than the sum of the reported data in the detail revenue and investment return categories.

NOTE: Title IV institutions are those with a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs. Though they are not Title IV eligible, four of the U.S. service academies are included in the Integrated Postsecondary Education Data System (IPEDS) universe since they are federally funded and open to the public. Due to differences between GASB standards and FASB standards, figures from public institutions and administrative offices are not comparable to figures from private entities, even in categories with identical labels. Percentages in the columns of this table use the corresponding dollar amount in the appropriate total row of each section as the denominator. Definitions for terms used in this table may be found in the IPEDS online glossary located at <http://nces.ed.gov/ipeds/glossary>. Detail may not sum to totals because of rounding.

See notes at end of table.

Table 3. Graduation rates at all Title IV institutions, by race/ethnicity, level and control of institution, gender, and degree at the institution where the students started as full-time, first-time students: United States, cohort years 2005 and 2008—Continued

| Level and control of institution, gender, degree sought, and degree completed | Overall (%) | American Indian or Alaska Native (%) | Asian (%) | Black or African American (%) | Hispanic or Latino (%) | Native Hawaiian or Other Pacific Islander (%) | White (%) | Two or more races (%) | Race/ethnicity unknown (%) | Nonresident alien (%) |
|---|-------------|--------------------------------------|-----------|-------------------------------|------------------------|---|-----------|-----------------------|----------------------------|-----------------------|
| Less-than-2-year institutions (cohort year 2008) | 66.4 | — | — | — | — | — | — | — | — | — |
| Public | 69.3 | — | — | — | — | — | — | — | — | — |
| Private nonprofit | 76.7 | — | — | — | — | — | — | — | — | — |
| Private for-profit | 65.5 | — | — | — | — | — | — | — | — | — |

— Not available. Graduation rates data are not collected by race/ethnicity or gender for less-than-2-year institutions.

¹ The total 4-year institution cohort contains all full-time, first-time degree- or certificate-seeking undergraduates, regardless of the level of the award sought.

NOTE: Title IV institutions are those with a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs. Though they are not Title IV eligible, four of the U.S. service academies are included in the Integrated Postsecondary Education Data System (IPEDS) universe since they are federally funded and open to the public. The rates in this table reflect graduation rates at institutions regardless of the length of programs, unless otherwise indicated. The graduation rate was calculated as required for disclosure and reporting purposes under the Student Right-to-Know Act. This rate was calculated as the total number of completers within 150 percent of normal time divided by the revised cohort minus any allowable exclusions. The revised cohort is the number of students entering the institution as full-time, first-time degree- or certificate-seeking undergraduates in the reference year. Allowable exclusions include those students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church missions. Students who self-identify with more than one race are included in the Two or more races category. Students of Hispanic or Latino ethnicity are included in the Hispanic or Latino category regardless of race. Definitions for terms used in this table may be found in the IPEDS online glossary located at <http://nces.ed.gov/ipeds/glossary>. SOURCE: U.S. Department of Education, National Center for Education Statistics, IPEDS, Spring 2012, Graduation Rates component (preliminary data).

Table 4. Graduation rates of students at the Title IV institution where the students started as full-time, first-time students, by control of institution, degree sought, level of institution, degree completed, and time to degree: United States, cohort years 2003 and 2007

| Degree sought, level of institution, degree completed, and time to degree | Overall (%) | Private | | |
|---|-------------|------------|---------------|----------------|
| | | Public (%) | Nonprofit (%) | For-profit (%) |
| Bachelor's or equivalent degree-seekers attending 4-year institutions and completing bachelor's or equivalent degree (cohort year 2003) | | | | |
| Within 100% of normal program completion time | 37.1 | 30.7 | 52.0 | 14.6 |
| Within 150% of normal program completion time | 57.8 | 55.7 | 65.4 | 23.2 |
| Within 200% of normal program completion time | 60.4 | 58.9 | 66.8 | 24.7 |
| Degree- or certificate-seekers attending 2-year institutions and completing a degree or certificate (cohort year 2007) | | | | |
| Within 100% of normal program completion time | 21.3 | 12.9 | 36.6 | 44.4 |
| Within 150% of normal program completion time | 32.9 | 22.3 | 53.8 | 61.9 |
| Within 200% of normal program completion time | 37.2 | 27.6 | 56.8 | 63.4 |
| Certificate-seekers attending less-than-2-year institutions and completing a certificate (cohort year 2007) | | | | |
| Within 100% of normal program completion time | 46.3 | 51.3 | 53.8 | 45.2 |
| Within 150% of normal program completion time | 66.9 | 69.7 | 76.9 | 66.0 |
| Within 200% of normal program completion time | 69.1 | 74.7 | 78.6 | 67.9 |

NOTE: Title IV institutions are those with a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs. Though they are not Title IV eligible, four of the U.S. service academies are included in the Integrated Postsecondary Education Data System (IPEDS) universe since they are federally funded and open to the public. The rates in this table reflect graduation rates at institutions regardless of the length of programs, unless otherwise indicated. The graduation rate was calculated as required for disclosure and reporting purposes under the Student Right-to-Know Act. This rate was calculated as the total number of completers within specified time to degree divided by the revised cohort minus any allowable exclusions. The revised cohort is the number of students entering the institution as full-time, first-time degree- or certificate-seeking undergraduates in the cohort year. Allowable exclusions include those students who died or were totally and permanently disabled; those who left school to serve in the armed forces; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on official church missions. Definitions for terms used in this table may be found in the IPEDS online glossary located at <http://nces.ed.gov/ipeds/glossary>.

SOURCE: U.S. Department of Education, National Center for Education Statistics, IPEDS, Spring 2012, 200 Percent Graduation Rates component (preliminary data).

Appendix A: Data Collection Procedures

The spring 2012 collection was entirely web-based; data were collected between December 7, 2011, and April 11, 2012. Data were provided by “keyholders,” institutional representatives appointed by campus chief executives, who were responsible for ensuring that survey data submitted by the institution were correct and complete. No problems were noted during the spring 2011 data collection. During the collection period, the Integrated Postsecondary Education Data System (IPEDS) help desk was available to assist respondents with reporting the necessary data.

The IPEDS universe is established during the fall collection period. There were 7,479 Title IV institutions and administrative offices¹ located in the United States and the other jurisdictions of the United States, such as Puerto Rico,² in the 2011-12 academic year. In addition, 312 postsecondary institutions were reported exclusively by a parent institution³ and are not included in the universe counts. Though they are not Title IV eligible, four of the U.S. service academies are included in the IPEDS universe as if they were Title IV institutions since they are federally funded and open to the public.⁴ Data for all five institutions are included in the tables and counts of institutions unless otherwise indicated.

Because Title IV institutions are the primary focus of IPEDS and they are required to respond, response rates for Title IV institutions in the spring 2012 IPEDS collection were high. Response rates reported here are preliminary; as data undergo further review they will be adjusted accordingly and presented in the First Look using the provisional data. The Enrollment component response rate among all eligible Title IV institutions was 99.8 percent (7,378 institutions responded).⁵ For the Finance component, the response rates was 99.8 percent (7,446 Title IV entities responded).⁶ The Graduation Rates component response rate was 99.7 percent (6,273 institutions responded).⁷ The response rate for the 200 Percent Graduation Rates component was 99.8 percent (5,801 institutions responded).⁸

¹ Title IV institutions and administrative offices include 7,398 institutions and 81 administrative (central or system) offices. The central and system offices are required to complete the Institutional Characteristics component in the fall, the Human Resources component in the winter, and the Finance component in the spring (if they have their own separate budget).

² The other U.S. jurisdictions surveyed in IPEDS are American Samoa, the Federated States of Micronesia, Guam, the Marshall Islands, the Commonwealth of the Northern Mariana Islands, Palau, Puerto Rico, and the U.S. Virgin Islands.

³ A parent institution reports data for another institution, known as the child institution.

⁴ The four U.S. service academies that are not Title IV eligible are the U.S. Naval Academy, the U.S. Military Academy, the U.S. Coast Guard Academy, and the U.S. Air Force Academy. The U.S. Merchant Marine Academy is Title IV eligible.

⁵ Four Title IV institutions that were included in the IPEDS universe were not required to respond to the Enrollment component because the institutions either closed or did not enroll students; hence, a total of 7,394 institutions were expected to respond.

⁶ Sixteen institutions that were included in the IPEDS universe were not in operation during fiscal year 2011 and were not required to respond to the Finance component; hence, a total of 7,463 eligible Title IV entities were expected to respond.

⁷ A total of 6,289 institutions were expected to respond to the Graduation Rates component.

⁸ A total of 5,815 institutions were expected to respond to the Graduation Rates 200 component.

The National Center for Education Statistics statistical standards require that the potential for nonresponse bias for all institutions (including those in other jurisdictions) be analyzed for sectors for which the response rate is less than 85 percent. Because response rates were greater than 99.7 percent for each of the survey components, no such analysis was necessary. Response rates were just under 100.0 percent, and imputed values will be included as part of the provisional data, when released.

Appendix B: Glossary of IPEDS Terms

adjusted cohort: In the Graduation Rates component of the Integrated Postsecondary Education Data System (IPEDS), an institution's revised cohort minus any allowable exclusions.

administrative office: The system or central office in a multicampus environment.

auxiliary enterprises revenues: Revenues generated by or collected from the auxiliary enterprise operations of the institution that exist to furnish a service to students, faculty, or staff and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, intercollegiate athletics, college unions, college stores, and movie theaters.

bachelor's or equivalent degree-seeking cohort: In the Graduation Rates component of IPEDS, a cohort of students who were seeking a bachelor's or equivalent degree upon entry.

child institution: An institution that has its data reported by another institution, known as the parent institution.

cohort: A specific group of students identified and tracked over time.

cohort year: The year that a cohort of full-time, first-time students began attending college.

completers within 150 percent of normal time: Students who completed their program within 150 percent of the normal (or expected) time for completion at the same institution where the student started.

control (of institution): A classification of whether an institution is operated by publicly elected or appointed officials (public control) or by privately elected or appointed officials and derives its major source of funds from private sources (private control).

degree/certificate-seeking students: Students enrolled in courses for credit who are recognized by the institution as seeking a degree or other formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

exclusions: Those students who may be removed (deleted) from a cohort (or subcohort). For the Graduation Rates data collection, students may be removed from a cohort if they left the institution for one of the following reasons: died or were totally and permanently disabled; to serve in the armed forces; to serve with a foreign aid service of the federal government, such as the Peace Corps; or to serve on official church missions.

fall cohort: The group of students entering in the fall term established for tracking purposes. For the Graduation Rates component, this includes all students who enter an institution as full-time, first-time degree- or certificate-seeking undergraduate students during the fall term of a given year.

Financial Accounting Standards Board (FASB): FASB is recognized by the American Institute of Certified Public Accountants (AICPA) as the body authorized to establish accounting standards. In practice it defers to the GASB for the setting of accounting standards for local and state government entities.

first-time student (undergraduate): A student with no prior postsecondary experience attending any institution for the first time at the undergraduate level. Includes students enrolled in academic or occupational programs. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term, as well as students who entered with advanced standing (college credits earned before graduation from high school).

full-time student: *Undergraduate*—A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term. *Graduate*—A student enrolled for 9 or more semester credits, or 9 or more quarter credits, or a student involved in thesis or dissertation preparation that is considered full time by the institution.

full-year cohort: The group of students entering at any time during the 12-month period September 1 through August 31 that is established for tracking and reporting Graduation Rate data for institutions that primarily offer occupational programs of varying lengths. Students must be full time and first time to be considered in the cohort.

Governmental Accounting Standards Board (GASB): The GASB establishes accounting standards for local and state entities including governmental colleges and universities.

government appropriations (revenues): Revenues received by an institution through acts of a legislative body, except grants and contracts. These funds are for meeting current operating expenses and not for specific projects or programs. The most common example is a state's general appropriation. Appropriations primarily to fund capital assets are classified as capital appropriations.

government grants: Transfers of money or property from a government agency to the education institution without a requirement to receive anything in return. These grants may take the form of grants to the institutions to undertake research or they may be in the form of student financial aid. (Used for reporting on the Finance component.)

graduate student: A student who holds a bachelor's degree, or equivalent, and is taking courses at the post-baccalaureate level. These students may or may not be enrolled in graduate programs.

graduation rate: The rate required for disclosure and/or reporting purposes under Student Right-to-Know. This rate is calculated as the total number of completers within 150 percent of normal time divided by the revised cohort minus any allowable exclusions.

level of institution: A classification of whether an institution's programs are 4 years or more (4-year), at least 2 but less than 4 years (2-year), or less than 2 years (less-than-2-year).

nonresident alien: A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

normal time to completion: The amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution's catalog. This is typically 4 years (8 semesters or trimesters, or 12 quarters, excluding summer terms) for a bachelor's degree in a standard term-based institution; 2 years (4 semesters or trimesters, or 6 quarters, excluding summer terms) for an associate's degree in a standard term-based institution; and the various scheduled times for certificate programs.

Office of Postsecondary Education (OPE): OPE formulates federal postsecondary education policy and administers programs that address critical national needs in support of its mission to increase access to quality postsecondary education.

parent institution: An institution that reports data for another institution, known as the child institution.

part-time student: *Undergraduate*—A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 contact hours a week each term. *Graduate*—A student enrolled for either 8 semester credits or less, or 8 quarter credits or less, excluding those involved in thesis or dissertation preparation that is considered full time by the institution.

postsecondary education: the provision of a formal instructional program whose curriculum is designed primarily for students beyond the compulsory age for high school. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

postsecondary education institution: An institution that has as its sole purpose, or one of its primary missions, the provision of postsecondary education. For IPEDS, this institution must be open to the public.

private for-profit institution: A private institution in which the individual(s) or agency in control receives compensation other than wages, rent, or other expenses for the assumption of risk.

private nonprofit institution: A private institution in which the individual(s) or agency in control receives no compensation, other than wages, rent, or other expenses for the assumption of risk. These include both independent nonprofit schools and those affiliated with a religious organization.

Program Participation Agreement (PPA): A written agreement between a postsecondary institution and the Secretary of Education. This agreement allows institutions to participate in any of the Title IV student assistance programs other than the State Student Incentive Grant (SSIG) and the National Early Intervention Scholarship and Partnership (NEISP) programs. The PPA conditions the initial and continued participation of an eligible institution in any Title IV program upon compliance with the General Provisions regulations, the individual program regulations, and any additional conditions specified in the program participation agreement that the Department of Education requires the institution to meet. Institutions with such an agreement are referred to as Title IV institutions.

programs of less than 2 years: Programs requiring less than 2 years of full-time-equivalent college-level work (4 semesters or 6 quarters) or less than 1,800 contact hours to obtain a degree, diploma, or certificate.

public institution: An educational institution whose programs and activities are operated by publicly elected or appointed school officials and which is supported largely by public funds.

race/ethnicity: Categories developed in 1997 by the Office of Management and Budget that are used to describe groups to which individuals belong or identify with. The categories do not denote scientific definitions of anthropological origins. The designations are used to categorize U.S. citizens, resident aliens, and other eligible noncitizens.

Individuals are asked to first designate ethnicity as:

- Hispanic or Latino or
- Not Hispanic or Latino

Second, individuals are asked to indicate all races that apply among the following:

- American Indian or Alaska Native

- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White

For reporting purposes, students that identify with more than one race are included in the Two or more races category.

resident alien (and other eligible noncitizens): A person who is not a citizen or national of the United States but who has been admitted as a legal immigrant for the purpose of obtaining permanent resident alien status and who holds one of the following: an alien registration card (Form I-551 or I-151), a Temporary Resident Card (Form I-688), or an Arrival-Departure Record (Form I-94) with a notation that conveys legal immigrant status such as Section 207 Refugee, Section 208 Asylee, Conditional Entrant Parolee or Cuban-Haitian.

revised cohort: Initial cohort after revisions are made. This is the number from which graduation and transfer-out rates are calculated. Cohorts may be revised if an institution discovers that incorrect data were reported in an earlier year.

sector: One of nine institutional categories resulting from dividing the universe according to control and level. Control categories are public, private nonprofit, and private for-profit. Level categories are 4 years and higher (4-year), at least 2 but less than 4 years (2-year), and less than 2 years (less-than-2-year). For example: public 4-year institutions.

state and local government grants: State and local monies awarded to the institution under state and local student aid programs, including the state portion of State Student Incentives Grants (SSIG) (used for reporting Student Financial Aid data).

Student Right-to-Know Act: Also known as the “Student Right-to-Know and Campus Security Act” (P.L. 101-542), which was passed by Congress November 9, 1990. Title I, Section 103, requires institutions eligible for Title IV funding to disclose completion or graduation rates of certificate- or degree-seeking, full-time students entering an institution to all students and prospective students. Further, Section 104 requires each institution that participates in any Title IV program and is attended by students receiving athletically related student aid to annually submit a report to the Secretary of Education. This report is to contain, among other things, graduation/completion rates of all students as well as students receiving athletically related student aid by race/ethnicity and gender and by sport, and the average completion or graduation rate for the four most recent years. These data are also required to be disclosed to parents, coaches, and potential student athletes when the institution offers athletically related student aid. The Graduation Rates component of IPEDS was developed specifically to help institutions respond to these requirements.

subcohort: A predefined subset of the initial cohort or the revised cohort established for tracking purposes on the Graduation Rates component of IPEDS (e.g., athletic subcohort).

Title IV institution: An institution that has a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs (other than the State Student Incentive Grant [SSIG] and the National Early Intervention Scholarship and Partnership [NEISP] programs).

undergraduate student: A student enrolled in a 4- or 5-year bachelor’s degree program, an associate’s degree program, or a vocational or technical program below the baccalaureate level.

2-year institution: A postsecondary institution that offers programs of at least 2 but less than 4 years' duration. Includes occupational and vocational schools with programs of at least 1,800 hours and academic institutions with programs of less than 4 years. Does not include bachelor's degree-granting institutions where the baccalaureate program can be completed in 3 years.

4-year institution: A postsecondary institution that offers programs of at least 4 years' duration or one that offers programs at or above the baccalaureate level. Includes institutions that do not offer undergraduate programs, but do offer programs at the postbaccalaureate certificate level or above. Also includes freestanding medical, law, or other professional schools.
