Subject: Some 2.1 Commit Statistics

The Sakai 2.1 effort is and has been very busy - I just added up some numbers.

SVN Commits in the last 24 hours: 81
SVN Commits in the last 7 days: 357
SVN Commits in the last two months: 2536

Different individual committers: 36
Higher-ed institutions committing: 10
Commercial companies committing: 2
Continents the code in 2.1 comes from: 4

This is a large, distributed, and highly productive team.

/Chuck
