

# MyPlan

MyPlan is an online academic planning tool currently in development that will provide students a single system to search for courses, save courses of interest, create a multi-quarter plan, and share their plan with advisers.

## Academic Planning Online

*A simplified, integrated planning tool available to all UW students*

### Search and Filtered Results

Students will be able to search and navigate results to find courses that match their preferences such as course levels, credit needs, and general interests.

### Bookmarked Courses List

Whether casually browsing for courses or getting recommendations from friends, students will be able to bookmark courses into a list that can be used for future academic planning.

### Multi-Quarter Course Plans

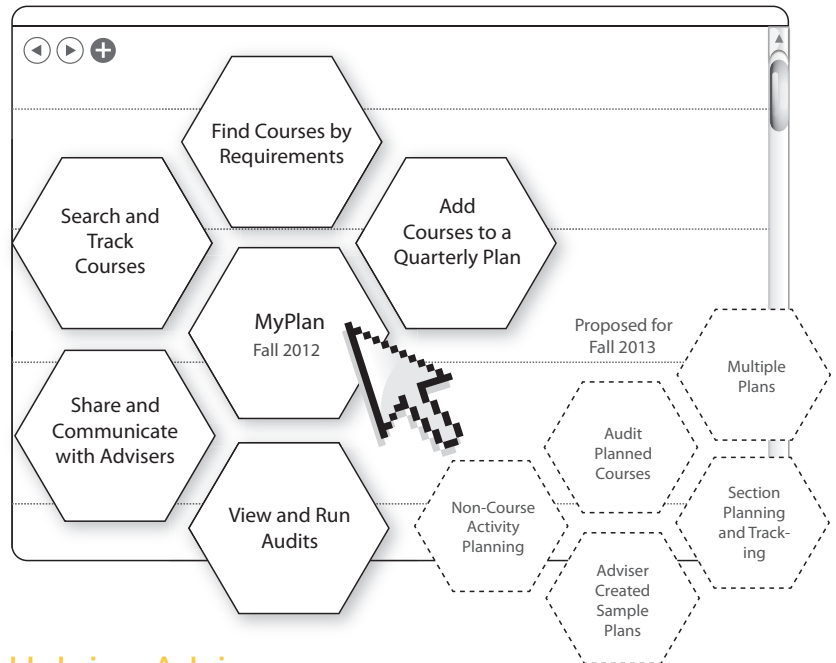

Students will be able to generate a multi-quarter plan online through a single interface rather than manually navigating multiple systems.

### Audit Informed Planning

Students will be able to run audits against their current academic record within MyPlan to help inform course selections and determine courses to fulfill academic requirements.

## Helping Advisers

*Simplifying the planning logistics for students can help the adviser dialogue*

### Less Time on Logistics

When students create plans online, advisers can spend more of their time with students on achieving goals and less time on planning logistics.

### Online Feedback

Advisers will be able to view a student's plan and provide feedback online at anytime.

## Integration with Current UW Systems

*MyPlan consolidates UW data and integrates with UW systems for accurate academic planning*

### Commitment to Integrate with MyGrad and EARS

Integrating links with current UW systems eliminates the need for advisers to navigate multiple systems to access a student's plan.

### Academic Planning Based on Existing UW Data

MyPlan accesses data from existing systems, including the course catalog, time schedule, SDB, and DARS to ensure academic plans are made based on the most recent UW data.

#### UPCOMING ENGAGEMENT

- **September 13, 2012**  
Graduate School GPA meeting
- **Mid-Sept. 2012**  
MyPlan Pilot Project
