MyPlan Enhances UW Student Planning and Advising

UW students can now use a new online academic planning tool—MyPlan—to more easily find courses, develop an academic plan, track progress, and get adviser input. For a quick overview, watch the “Welcome to MyPlan” video at MyPlan Help. Funded in part by the Student Technology Fee, MyPlan is available to students through MyUW or at myplan.uw.edu. UW-IT is developing MyPlan with students, advisers, and central student services offices. Coming soon to MyPlan—Registration planning.
