

Yahoo! Inc. (US)

“Our mission is to be the most essential global Internet service for consumers and businesses. How we pursue that mission is influenced by a set of core values - the standards that guide interactions with fellow Yahoos, the principles that direct how we service our customers, the ideals that drive what we do and how we do it. Many of our values were put into practice by two guys in a trailer some time ago; others reflect ambitions as our company grows. All of them are what we strive to achieve every day.”
