Each Author grants permission to OASIS and OASIS members the right to copy, display, perform, modify and distribute the Web Services Security ("WS-Security") draft specification and to authorize others to do the foregoing, in any medium without fee or royalty, for the purpose of further developing the WS-Security specification in the WSSTC as set forth in the draft WSS TC charter.

2. Each Author commits to grant a non sub-licenseable, non-transferable license to third parties, under royalty-free and other reasonable and non-discriminatory terms and conditions, to certain of their respective patent claims that such Author deems necessary to implement required portions of the WS-Security specification, provided a reciprocal license is granted.

3. DISCLAIMERS:
