World Wide Web Consortium

"The World Wide Web Consortium (*W3C*) develops interoperable technologies (specifications, guidelines, software, and tools) to lead the Web to its full potential. W3C is a forum for information, commerce, communication, and collective understanding."

www.W3C.org, July 23, 2002

"The World Wide Web Consortium was created in October 1994 to lead the World Wide Web to its full potential by developing common protocols that promote its evolution and ensure its interoperability. W3C has around 500 Member organizations from all over the world and has earned international recognition for its contributions to the growth of the Web."
