

# *Digital Library Federation*

“The Digital Library Federation (DLF) is a consortium of libraries and related agencies that are pioneering in the use of electronic-information technologies to extend their collections and services. Through its members, the DLF provides leadership for libraries broadly by identifying standards and "best practices" for digital collections and network access, coordinating leading-edge research-and-development in libraries' use of electronic-information technology, [and] helping start projects and services that libraries need but cannot develop individually.”
